

AL-KHASMIR M. BASALUDDIN

Software Developer | Full-Stack · Mobile · Machine Learning

Zamboanga City, Philippines | 09563350760 | khasmirmb@gmail.com | github.com/khasmirmb | linkedin.com/in/al-khasmir-basaluddin-59512730b

PROFESSIONAL SUMMARY

Software Developer with 2+ years of hands-on experience building and shipping full-stack web and mobile applications across multiple concurrent product initiatives. Holds a BS in Computer Science from Western Mindanao State University. Proficient in React, Laravel, Flutter, Node.js, and Python, with a disciplined approach to database architecture, API design, and machine learning integration. Currently contributing to product development at Vintazk / Nexzys Intelligence while continuously deepening expertise in cloud infrastructure and modern tooling.

WORK EXPERIENCE

Software Developer

Vintazk / Nexzys Intelligence • 2025 – Present

- Design and develop full-stack web applications using React, Laravel, and Node.js.
- Collaborate on system architecture decisions and contribute to core product features.
- Manage Supabase and MySQL database schemas, queries, and data integrity across multiple projects.

Freelance Developer

Self-Employed • 2024 – 2025 · 8 months

- Delivered custom web and mobile solutions for clients using modern frameworks and technologies.
- Built client-facing applications end-to-end: requirements gathering, design, development, and deployment.

Inventory Staff

FC Floor Center • 2025 · 2 months

- Maintained systematic inventory records and managed stock tracking workflows.
- Ensured data accuracy across operational inventory systems.

EDUCATION

Bachelor of Science in Computer Science

Western Mindanao State University, Zamboanga City • 2020 – 2024

Completed coursework in programming, algorithms, data structures, software engineering, and database management. Delivered multiple capstone projects including a full-stack booking system and a deployed machine learning model.

TECHNICAL SKILLS

LANGUAGES & FRAMEWORKS

- PHP (Laravel) / JavaScript
- Python / Jupyter Notebook

DATABASES & BACKEND

- MySQL / SQLite / Supabase
- REST API Design

TOOLS & EXPLORING

- Figma / Canva
- Microsoft Office Suite

- ▶ Flutter / Dart
- ▶ React / React Native
- ▶ Node.js / Express
- ▶ HTML / CSS (Tailwind, Bootstrap)
- ▶ Machine Learning (Scikit-learn)
- ▶ Data Analysis (Pandas)
- ▶ Git / GitHub
- ▶ MVC Architecture
- ▶ VS Code / Android Studio
- ▶ TypeScript (learning)
- ▶ Docker (learning)
- ▶ AWS Cloud Practitioner

PERSONAL SKILLS

- ▶ Strong collaboration and communication abilities
- ▶ Effective problem-solving and troubleshooting skills
- ▶ Highly organized and efficient
- ▶ Adaptable and quick to learn new technologies
- ▶ Capable of working both independently and as part of a team
- ▶ Languages: English, Tagalog | Typing Speed: 90-100 WPM

KEY PROJECTS

ZamGo — Business Directory App

Local business discovery platform for Zamboanga City featuring directory search, exclusive deals with QR code redemption, user reviews, and a barter marketplace.

Stack: *React Native, JavaScript, Supabase, REST API*

TripWise — Shipping Line Booking

Sea travel booking platform with dynamic ferry scheduling, tiered accommodation and pricing, seat selection, QR-verified ticket generation, and integrated online payment.

Stack: *Laravel, MySQL, JavaScript, Bootstrap*

WeCare — Nursing Home Platform

Full-stack elderly care system with real-time family monitoring portal, appointment scheduling, patient admission records, and an integrated cashier and billing module.

Stack: *PHP, MySQL, Bootstrap, JavaScript*

Used Car Price Prediction

End-to-end ML pipeline covering data cleaning, EDA, feature engineering, and multi-model evaluation. Deployed as a web application for real-time price estimation.

Stack: *Python, Scikit-learn, Pandas, Jupyter Notebook*
